CENTRE ÉMILE BOREL

16 April - 13 July 2018 | Thematic trimester of the CENTRE ÉMILE BOREL :

["Measurement and control of quantum systems : theory and experiments"](#)

Organizers : Etienne BRION, Eleni DIAMANTI, Alexei OURJOUNTSEV, Pierre ROUCHON

	The Worksh ops :	05 - 07 june 2018	02 - 06 july 2018
	15 - 17 may 2018	Quantu m Observ ability and estimat ion in quantu m dynam ics	PRACO SYS 2018 : Principl es and Applica tions of Control in Quantu m System s

Research in Paris at the CENTRE ÉMILE BOREL

4 weeks in may : "Structural sparsity", P. Ossona de Mendez, J. Nešetřil, F. Reidl, S. Siebertz, B. D. Sullivan

20 may - 30 june : "The nonlinear evolution equations", T. Duyckaerts, S. Roudenko

2 weeks in juin : "Critical height, moduli height, resultant height", T. Gauthier, P. Ingram, K. Jacobs, H. Krieger

3 - 23 september : "Eingenfunctions of conjugated Schrödinger operators", B. Mityagin, P. Siegl, J. Viola

The two Poincaré Chair laureates 2018/2019

The two Poincaré Chair laureates for academic year 2018/2019 have just been announced. The international selection committee has deliberated in favour of [Paul Bourgade](#) (Courant Institute, NY, USA) and [Joel Kamnitzer](#) (University of Toronto, Department of Mathematics, Canada), who thus become the fourth pair of Poincaré Chair laureates.
