September 13, 2021, from 5:30 pm to 8 pm
At the Institut Henri Poincaré, amphitheater Hermite, 11 rue Pierre et Marie Curie, 75005 Paris

Sylvie Benzoni, Director of the Institut Henri Poincaré (IHP) and Emmanuel Ullmo, Director of the Institut des hautes études scientifiques (IHES) are pleased to invite you to a presentation of the book " Do Not Erase: Mathematicians and their Chalkboard", by Jessica Wynne.

Presentation

The ephemeral aesthetics of mathematics on the chalkboard is the subject of a series of photographs produced by Jessica Wynne, associate professor of photography at the Fashion Institute of Technology. This work presents more than 100 photographs with texts written by the mathematicians whose chalkboards are portrayed. In 2021, it has resulted in the book "Do Not Erase: Mathematicians and their Chalkboards", published by Princeton University Press.

During one evening, come and discover mathematical chalkboards from all around the world during a meeting at the Institut Henri Poincaré, with the photographer Jessica Wynne and the mathematician Amie Wilkinson. The event will start with a presentation of the book and will continue with a discussion around a cocktail.
