## RÉGA

**Gabriele Vezzosi "An overview of derived algebraic geometry"**

IHP  
Salle 314

INSCRIPTION

Gabriele Vezzosi (IMJ Paris 7)  
An overview of derived algebraic geometry

Derived algebraic geometry is a generalization of algebraic geometry where commutative rings are replaced by 'commutative rings' having an intrinsic homotopy theory (e.g simplicial commutative rings and commutative differential graded algebras). I will motivate and introduce derived stacks, give some examples and sketch applications to obstruction theories and quantization of moduli problems.

## **INSTITUT HENRI POINCARÉ - UAR839**

Sorbonne Université / CNRS  
11 rue Pierre et Marie Curie  
75231 Paris Cedex 05

### **HORAIRES**

L'institut :

- lundi au vendredi de 8h30 à 18h,
- fermé les jours fériés.

Le musée - Maison Poincaré :

- lundi, mardi, jeudi et vendredi  
de 9h30 à 17h30,
- samedi de 10h à 18h,
- fermé le mercredi et le dimanche.
