## EXHIBITION

### Rencontre des infinis / Meeting of the infinites

**Start date** : 2 March 2022 - **End date** : 15 April 2022

#### Introduction

The Institut Henri Poincaré and the Galerie Wagner present the group exhibition "Rencontre des infinis", associating mathematics and contemporary art.

Mathematics and the arts share much: a practice of constant research, and an expression that takes shape through signs and symbols that are their own.

The exhibition "Rencontre des infinis" highlights a selection of contemporary works, housed in the library of the Institut Henri Poincaré and among its mathematical models: an encounter between two worlds, at the crossroads of aesthetics and language.
