2025-T1 REPRESENTATION THEORY AND NONCOMMUTATIVE GEOMETRY

Mini-courses and other activities

Institut Henri Poincaré
Amphithéâtre Darboux

INSCRIPTION

This webpage collects preliminary information about the minicourses and other activities planned during the **thematic trimester on representation theory and noncommutative geometry at Institut Henri Poincaré (Paris)**.

For general information on the trimester, and for the registration form, see the link above.

This webpage will be updated over the next few months.

January 13 to 17, 2025: minicourses on branching problems and symmetry-breaking operators

URL de la page : <https://www.ihp.fr/fr/agenda/mini-courses-and-other-activities>

There will be at least two minicourses on the topics. These will be coordinated by Toshiyuki Kobayashi, Michaël Pevzner and Birgit Speh.

Speakers and schedule: TBA

January 27 to 31 and February 3 to 7: minicourses on the Baum–Connes conjecture and the Mackey bijection

There will be two minicourses, one on the Baum–Connes conjecture and one on the Mackey bijection.

Speakers: Alain Valette and Nigel Higson

Schedule: TBA

February 17 to 21: minicourse on the structure of tempered homogeneous spaces

Speaker: Toshiyuki Kobayashi

Schedule: TBA

March 3 to 7: p-adic week

Various activities related to the representation theory of reductive p-adic groups will be organized during this week. This will include minicourses on the Bernstein center and other topics.

This week will be coordinated by Anne-Marie Aubert, Hung Yean Loke and Monica Nevins.

Activities and schedule: TBA

March 10 to 14: Theta correspondence week

Various activities related to the theta correspondence will be organized during this week, which will be coordinated by Hung Yean Loke and Tomasz Przebinda.

Activities and schedule: TBA

March 17 to 21: minicourse on AQFT and causal homogeneous spaces

Speaker: Karl-Hermann Neeb

Schedule: TBA
