RÉGA

Yifei Zhao - 15h30 - Drinfeld's construction of Hecke eigensheaf for GL_2.
INSCRIPTION

In 1982, Drinfeld constructed an automorphic form on GL_2 for every irreducible rank-2 local system on a curve over a finite field, satisfying the Hecke eigenproperty. His construction is purely geometric and launched what is today known as the geometric Langlands program. In this talk, I will review the early history of the geometric Langlands program and explain Drinfeld's original argument.

INSTITUT HENRI POINCARÉ - UAR839

Sorbonne Université / CNRS
11 rue Pierre et Marie Curie
75231 Paris Cedex 05

HORAIRES

L'institut :

- lundi au vendredi de 8h30 à 18h,
- fermé les jours fériés.

Le musée - Maison Poincaré :

- lundi, mardi, jeudi et vendredi de 9h30 à 17h30,
- samedi de 10h à 18h,
- fermé le mercredi et le dimanche.
